- FX Series products can be attached to any sturdy vertical surface such as machines, walls, cabinets, etc.
- VESA® Flat Display Mounting Interface (FDMI™) Standard compliant for easy monitor attachment
- Keyboard and Mouse Holder accessory options available
- LIFETIME warranty

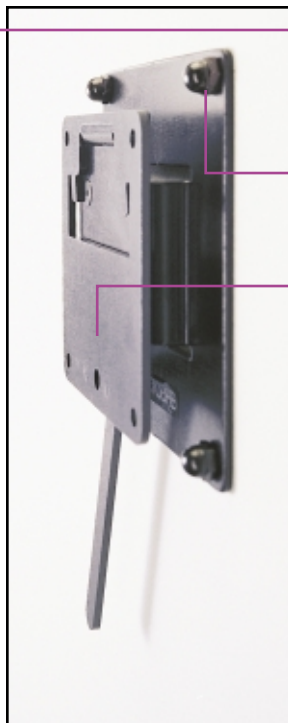

## Ergotron® FX Series

### low-profile mounting solution

The FX Series (Fixed) products allow a flat panel monitor to be mounted to a vertical surface much like hanging a picture on a wall. Once installed, these modules provide a rock-solid platform, even for monitors with touch-screen capability. To remove a monitor from the wall, the user simply moves the release-lever to the side and lifts off the monitor. Reinstallation is just as easy!

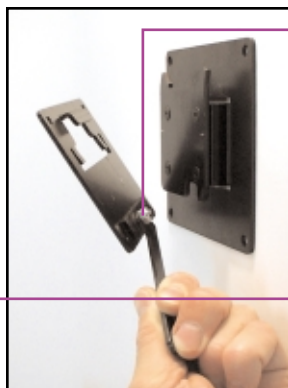

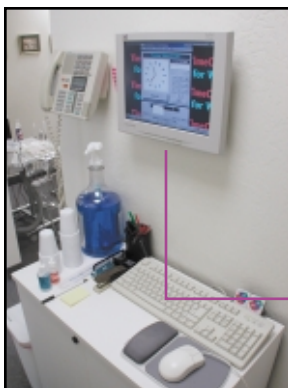

System places monitor only .77" (20 mm) from wall for an extremely low profile.

Mounts directly to surface, (fasteners for mounting unit to wall are customer supplied).

VESA® (FDMI™) Standard plate attaches directly to the back of compliant monitors (custom interface plates are available for non-VESA compliant monitors).

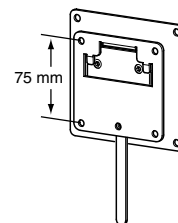

Unit includes a quick-release lever for easy removal and attachment of monitor.

Create a computer workstation in a small area.

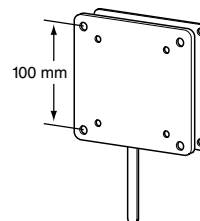

## FX Interface Brackets:

Both sizes ship standard with product.

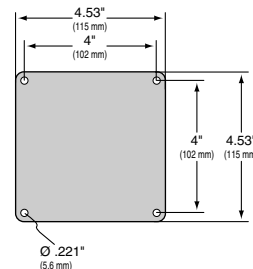

### 75 mm Monitor Interface Bracket

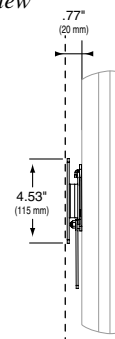

### 100 mm Monitor Interface Bracket

### Hole Pattern - Rear View

### Side View
