

# DEMAND CREDENTIALS

## TDK MEDICAL:

### CERTIFIED QUALITY, EXPERIENCE & COMMITMENT

In mission-critical medical imaging environments, you can't afford anything less than perfection. That's why all TDK medical-grade recording media is manufactured in strict compliance with federal government regulations, including cGMP guidelines as well as proper medical labeling and reporting procedures\*. TDK medical grade recording media safeguards the integrity of important medical images, ensuring absolute reliability when used with PACS systems and other modalities. Because recording media is an essential link in the medical imaging chain, don't risk it. TDK it.

# MEDICAL GRADE ARCHIVE QUALITY MEDIA

FULLY CERTIFIED & FROM THE ONLY COMPANY WITH DECADES OF EXPERIENCE AS THE RECORDING MEDIA LEADER.

Check with your reseller for DICOM Part 11 & 12 compliance as well as modality specific use.

## CD-R

- > Tested for compatibility with all DICOM recorders
- > Available in 650MB and 700MB capacity

### CD-R74MCAJ

- > Medical Grade CD-R74 650MB
- > Packaged in exclusive MedCaddy™, to prevent errors caused by mishandling
- > Includes MedCaddy™ labels & instructions

### CD-R74MJB

- > Medical Grade CD-R74 650MB
- > Preferred media for 2x-12x drives
- > Jewel case with spine labels & instructions

### CD-R80MPTCB

- > Medical Grade CD-R80 700MB, Thermal Printable Surface
- > Preferred Media for High Speed drives
- > Compatible with TDK DMC and CDRS Printers

## MAGNETO-OPTICAL

- > Engineered for durability and reliability
- > Precision manufactured for superior optical characteristics
- > Available in capacities from 128MB to 5.2GB

	size	capacity	bytes/sector
MO-R128M	3.5"	128MB	512
MO-R230M	3.5"	230MB	512
MO-R540M	3.5"	540MB	512
MO-R640M	3.5"	640MB	2048

MO-R5200M	5.25"	5.2GB	2048

## DVD

- > DVD+R, DVD-R and DVD-RAM formats available
- > Armor Plated Technology on DVD-R/+R designed to improve the life expectancy of patient records
- > Tested for compatibility with all DICOM recorders

### DVD+R47M

- > Medical Grade Super Hard Coat DVD+R 4.7GB, 8x write once
- > Armor Plated Technology provides 100 Times More Scratch Resistant, repels dust and scratches
- > Jewel case, branded surface

### DVD-R47M

- > Medical Grade Super Hard Coat DVD-R 4.7GB, 8x write once
- > Armor Plated Technology providing 100 Times More Scratch Resistant, repels dust and scratches
- > Available in Jewel case and Spindle; Printable thermal and branded surface

### DVD-RAM94M

- > Medical Grade DVD-RAM 9.4GB, rewriteable, dual sided
- > Hard coat cake box, type IV cartridge

## DATA CARTRIDGE

- > Advanced 5 layer construction provides ultra low error rates
- > Includes exclusive Media Recognition System to ensure compatibility
- > Available in capacities from 1.3GB to 12GB

- DC4-60M**
- > DDS compatible
- > 60-meter length, 1.3GB

- DC4-90M**
- > DDS compatible
- > 90-meter length, 2GB

- DC4-120M**
- > DDS2 compatible
- > 120-meter length, 4GB

- DC4-125M**
- > DDS3 compatible
- > 125-meter length, 12GB

## S-VHS VIDEO TAPE

- > Ultra fine Super Avilyn™ formula delivers unparalleled image sharpness and color saturation
- > Includes magnetic field control and high-precision SQ mechanism for total reliability
- > Supplied with labels

### ST-CM120M

- > 120-minute length
