Spec Sheet

The StarTech.com
Advantage:

Support and Resources: Single point of contact for all your questions; exclusive online tools and free live technical support

Save Time Sourcing: A complete selection of high-demand and hard-to-find products from one vendor

Best Value: StarTech.com products offer the best combination of features and price

Exclusive Resources: Complete product information and tools available at www.startech.com

4 Port StarView DVI USB KVM Switch with Audio
StarTech ID: SV431DVIUA

The StarTech.com SV431DVIUA is a 4-port DVI USB KVM Switch with Audio and Microphone switching functions. It allows you to control 4 USB-enabled multimedia computers with DVI (Digital Video Interfaces), using only one USB keyboard, mouse, monitor and a set of speakers and microphone. You can select the computers, USB device hub ports and audio/mic channels either simultaneously or independently, using front-panel buttons. This DVI USB KVM Switch adopts the DVI interface technology that implements genuinely digital signal transmission over the cable to reduce undesired distortion from conventional analog/digital conversion.

Applications and Solutions
> Ideal for using desktops, workstations and servers with Flat Panel LCD monitor
> Sharing computers and USB devices in the home/SOHO/multimedia environment
> Switches instantly between PCs
> Switching USB peripherials between PC's

Features
> 4-port DVI USB KVM switch with audio and microphone switching and 2 x USB 2.0 hub ports
> Channel selection/Hub port control by front-panel push buttons
> DVI interface technology supports digital video signal transmission
