3 ft Thin Toslink Digital Audio Cable

StarTech ID: THINTOS3

If you're serious about your home theatre system, you know the importance of using quality sound cables. When it comes to digital audio, there's nothing better than Toslink for maximum audio clarity and resolution. With no distortion or signal interference, Toslink gets the most out of your digital audio gear for rich, detailed sound, even at extreme volumes.

Thinner and more flexible than our regular Toslink cables, these cables are perfect for installations where space is tight. The flexible PVC jacket construction lets you bend the cable into any position you need while maintaining optimum fiber alignment so the sound quality doesn't drop. Experience the sound quality that only a pure digital connection can provide with StarTech.com Toslink cables.

Applications and Solutions

- > Connect your PC with Toslink connectors to an audio home theatre system
- > Ideal for DAT recorders, CD Players, CD Recorders, DVD players, Home Receiver, satellite dish and other types of digital audio equipment

Features

- > Delivers the most accurate bitstream transfer for the clearest and smoothest sound from your digital audio device
